You have that one bloodline The Maccabees in Israel/The William of Orange (our presidents and prime ministers/world leaders), The Catholic Church (A Jewish Sect) (they intended on replacing the gentile or non-jew), Goes all the way back to the royalty of ancient egypt. Suposedly the holohoax again. Jews in MSM and Mental Health Industry Psychology/Psychiatry. I remember Germanic Psychologists mentioning the Holohoax. Pro Zionist/Pro Military, however treats veterans and disabled people like crap. Kst File WL. They constantly fund Israel with these wars as well. Palestine gets killed off, Mosian a minefield, The West Bank/Syria/Gaza Strip same thing. As Kyle Odom has stated in his PDF Manifesto "The Martians are Megalomaniacal, Obsessed with Sex, Power Hunger, Obsessed with Control". They KST Filed everyone after the Patriot Act. That Gang Stalking Thing was expected, Telepathy and Remote Viewing (nothing new), Same with RI. The Perps be perping VC Sympathizers/Others. So after the Patriot Act everyone got on KST File Watchlist and some were Gang Stalked/Remote Viewed etc. NSAKEY ADVAPI32.dll and Mac OS/Andriod backdoor. They even made Canonical/Jewbuntu another backdoor to trick Linux users. Zionist Jews are 1% of Banking/Healthcare/Psychiatry/MSM/Gold Reserves. 911 a Mossad OP. That Bill Gates Made the OS 3x Larger even on Linux on x86s. I've heard of xPud OS it's only 64MB, Try anything to stop Perps/Gangstalkers. A one time pad az010sp\*random3. They breached everything period. They just remote view whatever. Then again the CIA was using slow decaflops and maybe 2K of ROM. Philanthropy=bring society in the dark ages, Thanks Bill Gates. Just as George Carlin said "It's the big wealthy business interests that control all the important things in life, forget the politicians, politicians are there to give you the idea that you have freedom of choice, you don't you have owners they own you....." "Go back to bed America, we have figured out how it all transpired." --Bill Hicks Just today the TV downstairs was on Fox News (News corp) and finally admitted Fluoride was causing a decrease in IQs. Typed in Infowars(dot)com, showed up also. Bill Gates even admitted in a PR-type speech he would make software go back into the dark ages and use up tons of overhead RAM and be entirely useless so we would need more RAM. Philanthropists run the show, Business Interests, Gold Reserves, Martians. The Idea of Fail Bill Gates was to lock in PCs (the BIOS) so it would not run other Operating Systems, thus giving you less freedom of choice. The Remote Maintenance features of vPro and iSeries CPUs (Intel) you have them doing kernel restarts etc. NSA. The Government already had us owned by the Cestui Que Vie Act in 1666 and the District of Columbia also owns us in 1871 by that act. So basically Rome, Swissyland, Israel, London (the crown), and the District of Columbia own all of our property/land/etc and when we deviate from their statutes and codes as a Persuant we loose all of our property, get kidnapped, tortured, the court system still does genital torture, we are a monarchic theocracy and the MSM will never tell you that. Rights are imaginary like the boogeyman as George Carlin said. Japanese Internment camps during FDR (glass steagal+federal reserve=fail), Nixon and Foreign Trade (More China BS Debt/Currency/Think-Air/Federal Reserve) (Crony Capitalism stuff like the new short wire edisons that burn out faster and not the Vintage Edisons), Printer Cartridges (those things are Bullshit - Reset it). Sunscreen=Cancer Sunglasses=? FannyPack=? Sneakers=? Kmart=? More Liability? The stuff so overpriced.....
